Mswrd632 error

If you receive a **mswrd632 error**, all this means is that your computer needs an update.

Here is what you do:

1. Go to <http://support.microsoft.com/kb/973904>

2. Scroll down and click on the **Fix it** icon

3. Then **download and install** the setup. You are now done and the error message should not appear anymore.
